

TIPS & ADAPTERS

At CTP we carry a wide variety of tips, adapters, shanks and wear protection bars for excavators, loaders, bulldozers and motor graders. Our broad selection of adapters includes everything from the weld on to bolt on options.

CTP Tips and Adapters deliver strength, durability, performance and productivity. They provide longer wear life which translates into less downtime and lower maintenance costs.

Ripper Teeth

Ripper teeth are used in very hostile environments, making it necessary to purchase a quality brand. CTP Branded ripper teeth provide rapid penetration and aggressive ripping angle, along with increased impact resistance. Centerline teeth are used in conditions where penetration is not a problem, compared to penetration teeth which are used in conditions where penetration is difficult.
