

HYDRAULIC MOTORS

CTP hydraulic motors offer reliability and performance at the toughest work environments.

Hydraulic Fan Motors

CTP Hydraulic Fan Motors are reliable even in the most extreme working conditions.

- ✓ Allow the fan speed to be independent from the engine speed. Integral valving in the motor maintains the speed at an optimum rate for proper cooling of the hydraulic oil.
- ✓ Control coolant temperature
- ✓ Provide cooling control of hydraulic fan drives and idles the fan to avoid excess power consumption and offer fuel savings.
